Class Objectives

The summer course primarily focuses on teaching acrylic painting techniques and is the favorite painting class among children

- Each class lasts 1.5 hours, with a new theme introduced every two weeks and a painting completed every two weeks.
- The course aims to delight children during their color-sensitive period and cultivate their understanding of basic colors.
- Through four different thematic directions, children are guided to learn painting techniques, covering color coordination, blending, brushwork, and gradients. While experiencing the joy of colors, they will learn to use colors to create their own worlds.
- The studio maintains strict standards to ensure each student's work is completed satisfactorily and to prevent chaos. Art is not only enjoyable but also requires perseverance and a determined mindset.
